- Test conditions: 100% depth of discharge (DoD), 0.2C rate charge & discharge at 25°C, at the beginning of life. If no PV modules are installed or the system has not detected sunlight for at least 24 hours, the minimum end of discharge SOC is 15%.
- The weight of the battery module is subject to the actual product, with a tolerance of ± 3%.
- Refer to battery warranty letter for conditional application.
- Improper storage system installation may compromise product warranty and operation safety. Please follow the user manual during the installation, use, and maintenance of the storage system.
- Please contact local engineer for the compatibility between the SUN2000-3/4/5/6/8/10KTL-M0 with the LUNA2000.
- Storage system is ordered and delivered in the form of power module and battery module separately with corresponding quantity.
